All,

Attached is a draft version of the DTSC Public Participation Community Survey for your review. As part of our standard Public Participation process, DTSC develops customized community surveys to identify concerns, best ways to communicate, and assess level of interest for a specific site.

In order to avoid potential confusion within the community by mailing two similar surveys (one from USEPA and one from DTSC), DTSC recommends incorporating the USEPA-related questions and mailing one survey. The community surveys will be made available in English and Spanish.

Additionally, a bilingual community survey cover letter will accompany the survey. This cover letter is currently being reviewed and edited and should be finalized by today. In accordance with DTSC's standard Public Participation process, the community surveys will be returned to DTSC. DTSC will tabulate the information collected from the community surveys and share the information with USEPA.

Should you have any suggested comments, edits, or questions, please feel free to contact me.

Best,
Marina
